WHITE LABORERS FOR EWA

MANAGER LOWRIE TELLS OF HIS CALIFORNIA TRIP.

Twelve Families From Modesto to Cultivate Cane at Ewa Plantation on Shares—More May Follow.

W. J. Lowrie, manager of Ewa plantation, returned on the Moana and was soon up to his eyes in business connected with the plantation. Concerning one of the main objects of his journey, the securing of white labor for the plantation, he found time to say:

"This project has always been a hobby with me, but I could never do anything until we got annexation. White farmers were afraid of our unsettled conditions here and would not take any chances. Now it is different. Hawaii is part of the United States, and white laborers will be only too glad to come here if they can do as well as in California. I went to Modesto, the county town of Stanislaus county, on the river of that name, in the great San Joaquin valley. It is the hottest farming country in California and men work there all summer in the grain fields with the thermometer from 95 to 112 degrees. I went there to get men because they would be accustomed to the hot weather and because they have had a bad season there and I thought I should have less trouble in getting men to come. I have arranged for twelve families to come first. They will number about twenty-one all told and are to leave about October 1st. These men will be given a field of 140 acres to cultivate, the company first plowing and planting it. They will have free houses, garden patches, water, fuel, medical attendance and school facilities. We advance them wages at the rate of \$18 per month if they desire it.

"The output of this field will be ground separated and converted into sugar by the company and the colony will be credited with one-sixth of the refined product. It will be sold in conjunction with the other sugar of the plantation, and, after the deduction of the pro-rata of expense of the transportation and other items involved in its marketing, the colonists will receive the proceeds of their share of the crop to be equally distributed among them, less the amount of wages advanced to them."

J. M. MILLER.

J. Martin Miller of the Chicago Inter Ocean, who came here to be present at the flag raising and to write up Hawaii, sails this afternoon on the Moana for New Zealand and Australia. He received instructions from his paper to proceed there at once. He will probably go from there to Manila.

MOANA AND ALAMEDA HERE

ON SCHEDULE TIME FROM THE ANTIPODES.

Moana Brings 205 Passengers for This Port and 80 Bound to the Colonies—A Stowaway.

The Oceanic Steamship Company's steamships Alameda and Moana met in this port this morning exactly on schedule time, starting from ports almost the antipodes of each other and over 7,000 miles apart.

The Moana, from San Francisco, arrived early, reaching her wharf before 7 o'clock. She carried to 255 passengers, 205 of whom were for this port, the largest number of persons not immigrants ever brought here on one vessel, at least for years. Of this number 95 were cabin passengers and 110 steerage.

There were four stowaways on the ship, one of whom proved obstreperous, created a disturbance, was locked up and will be returned to San Francisco on the Alameda.

Purser R. B. Rendall reports exceptionally fine weather all the way.

The Moana sails for Sydney and the Colonies at 3 p. m.

The Alameda, on the other hand, brought no passengers at all for this port, but will take a large number to the coast. She left Sydney August 29th, and experienced good weather all the way.

The Alameda sails at 5 p. m.

NO MORE ENTERTAINING.

Tables and Benches at Executive Building to be Cleared Away.

Chairman George W. Smith of the committee to entertain visiting soldiers, said this morning that it had been decided not to entertain any more troops, unless the war should be renewed, in which case an effort would be made to do something for all troops going through to Manila.

It is not proposed to publicly entertain the soldiers of the garrison or any regiments which may be temporarily stationed here, as they are the recipients of more or less attention at the hands of the Red Cross, Y. M. C. A. and other local societies, during their entire stay here.

The tables and benches in the Executive building grounds will be cleared away either today or tomorrow.

FAVOR ANNEXATION.

MANILA, September 6.—At a meeting yesterday of twenty leaders of the Filipinos of all sections called to discuss the policy of these islands, eighteen of them were emphatically in favor of outright annexation to the United States and two were in favor of a republic. The general native opinion is that it is best to adopt United States Consul Wildman's suggestion and offer liberal inducements to the independent factions to co-operate and to reward the services rendered.

KHARTOUM IS IN RUINS

POWER OF THE DERVISHES HAS BEEN BROKEN.

The Khalifa With the Remnant of His Forces Making for Kordofan—Popular Welcome the British.

LONDON, September 4.—The war office has received the following dispatch from General Kitchener, dated Saturday evening:

The remnant of the Khalifa's force has surrendered, and I now have a large number of prisoners on hand. Our cavalry and gunboats are still pursuing the Khalifa and his chiefs, who, with only about 140 fighting men, are apparently making for Kordofan.

The following telegram from the Siridar, dated today (Sunday) at Omdurman and forwarded by camel post to Naasr, was received this evening.

The camp has been moved outside Omdurman to the river banks. Our forces are doing well and are now descending the river. The Austrian sister, Theresa Grigolini, and all the European prisoners have been rescued. They are well.

The list of our casualties has not yet been received. The population of Omdurman manifests joy at the arrival of the expedition.

The left bank of the White Nile is so difficult of approach owing to the overflow and thick brush that the gunboats cannot effect a landing. I therefore can only rely upon the cavalry to capture the Khalifa.

"I visited Khartoum today. The town is a complete ruin, but the lower portions show some of the principal houses still standing. The people are naturally delighted to see us. So far as I can see at present Khartoum is the best position. Omdurman is very extensive, and the stretch there is unbearable. I have therefore moved the troops down to Khir Skambat, where we are now in a good camp on the river. All the British wounded will descend the river with this dispatch. There are no cases that cause grave anxiety.

Estimates of the Dervish loss vary from 7,000 to 15,000, but agree that it was enormous.

DREYFUS AND POLITICS

FRENCH PRESIDENCY INVOLVED IN THE CASE.

Brisson and Cavaignac Playing for the Great Honor—Mlle. Faure Will Work for Dreyfus' Release.

PARIS, September 3.—M. Cavaignac, minister of war, has resigned, due to a disagreement with his colleagues who desire a revision of the Dreyfus case; thus a revision of the case now seems assured.

PARIS, September 5.—The crisis in the Cabinet is not yet regarded as definitely settled. Both M. Brisson and M. Cavaignac are believed to be playing for the presidency of the republic and it is thought M. Brisson is growing jealous of M. Cavaignac's increasing popularity.

The latter owing to his superior social qualities, is supposed to stand the best chance, and it was with a view of securing the support of the army that he stood against revision. Opinions differ as to how the latest developments affect the situation.

There is a rumor tonight that General Zurlinden, the new minister of war, will advocate a mere annulling of the Dreyfus judgment and sentence as a safer way out of the imbroglio, than a re-trial involving all sorts of awkward revelations.

Madame Dreyfus has written a letter demanding a new trial for her husband.

Mlle. Faure, the president's daughter, will work for a new trial for the prisoner of Isle du Diabole.

HILO ROYALISTS HEARD

ANOTHER PETITION PRESENTED TO THE COMMISSION.

Senator Cullom Cross Examines two Royalist Gentlemen from the Rainy City, Who Get Flustered.

Without any previous intimation of the kind to anyone, two Hawaiians from Hilo, presented themselves before the Commission at 10 o'clock this morning. They gave their names as Ewalike and Henry West, and stated their object to be the presentation of a petition asking for the restoration of the monarchy, with Queen Liliuokalani on the throne, if possible, otherwise Princess Kaiulani. The petition was in the usual form and set forth the reasons why the petitioners thought the queen should be restored.

After the petition had been read, Senator Cullom took it in hand and cross examined the two petitioners on its contents. The document was signed by between two and three hundred natives, while in the body of it the claim was made that the majority of natives were in favor of restoration. They could not explain the discrepancy nor produce any proofs to back up the assertion made in the petition. After half an hour's hearing they were dismissed with the assurance that their petition would receive consideration.

Henry West and Ewalike, who presented this petition, were seen later and said: "We came here as delegates from Hilo to the Kalaiaia convention and we were among those who presented the memorial from that society yesterday afternoon. This petition from Hilo is a separate affair, we got it up on our own account and we alone are responsible for it. It expresses the feelings of the Hilo natives who still wish for the restoration of their queen. We procured between two and three hundred signatures to it and they are all genuine. The Commissioners were very kind to us, and while they did not give us any hopes of restoring our queen they promised to consider our petition."

ROSA IN COURT.

Judge Stanley is hearing one of the assault and battery cases against Captain Milner, of the City of Columbia, this afternoon, and the court room is crowded.

WELCOMED WITH SALUTES.

Arrival of American Commissioners at Porto Rico.

SAN JUAN DE PORTO RICO, September 6.—The United States troops transport Seneca, carrying Rear Admiral W. S. Schley and Brigadier General Gordon of the Porto Rico military commission, arrived this morning.

The United States cruiser New Orleans, which is lying in the harbor fired an admiral's salute of thirteen guns. The Spanish gunboat Isabel responded with thirteen guns, whereupon the New Orleans set the Spanish flag at the pole and saluted it with thirteen guns.

When the admiral's pennant was raised on board the New Orleans the marines paraded and the band played. Shortly before noon the Spanish Brigadier General Vallarino made an official visit to Admiral Schley and was saluted with seven guns.

MORE TROOPS MAY COME.

WASHINGTON, September 5.—It was stated at the war department today that nothing definite had been determined as to the movement of troops now at San Francisco to Manila, which depended upon information which was expected to be received from General Merritt as to the necessity for such troops. Probably three regiments would be sent to Honolulu if they did not go to Manila. If General Merritt, on his return, reported that there was good camping grounds at Honolulu, the soldiers would be sent there if not needed at Manila.

FROM GENERAL RIOS.

MADRID, September 6.—The minister of war has received a dispatch dated at Iloilo from General Rios, the captain general of the Spanish possessions in the Philippines, and governor of the Visaya islands, as follows: "Our flotilla has visited the whole archipelago. There was no sign of the threatened rebellion in the Visayas."

DEWEY PREPARED.

WASHINGTON, September 6.—Already the flagship Olympia and the gunboat Raleigh have been docked and cleaned at Hongkong, and the Boston arrived there last Saturday for the same purpose. Within the course of a few weeks, at the outside, Admiral Dewey's squadron will have been thoroughly renovated, and reinforced as he has been by the Monterey and the Monadnock, the admiral will be in shape to meet any who threaten to disturb his possessions in Manila.

SCANDIA TO SAIL.

The transport Scandia will probably sail tomorrow afternoon. She expects to be ready by that time. She will carry only the twenty-five artillery men in command of Lieutenant Hayne to guard the \$1,000,000 of treasure she carries, and the men of the hospital corps.

NEW ENGLAND BAKERY.

Horn's old place on Hotel street has been renovated and refitted. The best bread and pastry is made there.

OREGON FOR THE PACIFIC

BATTLESHIP TO BE SENT TO THESE WATERS.

Will be Accompanied by the Iowa—Both Ships are Now at the Brooklyn Navy Yard Preparing.

WASHINGTON, September 6.—It now appears certain that, as a result of recent developments in the international situation or because of a desire of the administration to be prepared for emergencies, the battleships Oregon and Iowa will leave within the next ten days for the Pacific coast. These vessels are now being put in the best possible shape at the Brooklyn navy yard.

Reports in circulation indicate that the vessels have been ordered to Manila, but it is believed these vessels will be attached to the Pacific station. There they will be in such a position that they will be able to defend the Pacific coast in case of attack by a foreign power or hasten to the Philippines to give support to Rear Admiral Dewey.

The battleships could easily make eleven knots in making the run from New York to the Pacific coast, and it is believed they could reach their destination in fifty-five days.

Should they start within the next ten days they will reach their destination early in November, before the peace commission concludes its labor. Of course during practically all of October they would be on the Pacific and could make a dash for the Philippines from any point along the southern or central American coasts, should the department determine that it were wise to send them.

Commander H. H. Bradford, chief of the bureau of equipment, who has charge of matters relating to supplying coal for naval ships, has collected a number of colliers at Hampton Roads, which carry about 17,000 tons of coal. Not all of these will be sent, but a sufficient number will accompany the vessels to insure a plentiful supply of fuel. The colliers are sent because the neutrality obligations of the South American states will prevent them giving coal to either American or Spanish ships.

THOMAS RAIN WALKER.

Her Britannic Majesty's Vice Consul Returns From England.

The community will be glad to know that T. Rain Walker, the British vice consul at this port, is again in this city, and that he expects to remain for some time. He said on the arrival of the Moana this morning:

"I have enjoyed my visit to England, although it was saddened by the death of Mr. Davies, which was entirely unexpected. I expect to remain in Honolulu for many months. Mrs. Walker is visiting her mother in England and our daughter Beatrice is at school there. Mrs. Walker will probably come to Honolulu in the early part of next summer, if not sooner."

MR. KINCAID TONIGHT.

Rev. Mr. Kincaid, the newly arrived pastor of the Central Union church, will conduct the regular prayer meeting services at the church this evening, and is anxious to see and become acquainted with as many members of the congregation as possible.
